

Why we do this

I just wanted to write you and tell you how much I appreciated your time and effort to clothe my daughter this morning. I apologize I was in such a rush to get to work.

(She) got out of school eager to see what I had got her. The shoes you picked out for her are her favorite and the jammies, another volunteer handed me were a huge hit! Also the jean jacket she had to parade around showing off to my customers at work. She loves everything! We can't thank you enough!

We have been going through such a difficult time this past year emotionally and financially. I am so happy that your organization is there to help out my little girl who is going through so much stress by making sure she is clothed like her friends. It's been very tough and watching her grow out of clothes that were from her last school year was devastating as I can not provide being totally on my own. Your gift already has changed her attitude and I got tons of smiles back out of her!

Kudos to you and your help! Thank you for being there!
